DEVELOPER PROFILE

From the moment I typed "Hello, World!", I was hooked. I have since dedicated myself to learning and refining my skills in web development, always on the lookout for new challenges and opportunities for growth.

Over the past two years, my primary focus has been on front-end development, specializing in React and Typescript. I also possess a solid understanding of backend development with Node.js and MongoDB.

You can find my professional experience and my recent projects below.

FRONTEND DEVELOPER - THERAPI

Part Time: Sep 2023 - Present

- Contributing to a transformative app connecting individuals with therapists.
- Shaping user experience and ensuring seamless frontend functionality.
- Collaborating with UI/UX designers and backend developers for feature integration.
- Participating in regular platform updates and deployments.
- Focusing on optimization for performance and user engagement.

`Next.js` `TypeScript` `Redux` `Tailwind` `Jest` `Git`

RETRO GAMES

Full-stack e-commerce platform facilitating secure payments via Stripe API integration.

Learned: Deepened my understanding of e-commerce workflows, especially payment processing with Stripe. Further improved my ability to create servers with Node.

`Next.js` `TypeScript` `Redux` `Node` `Express` `MongoDB` `Mongoose` `Tailwind CSS` `Stripe API`

SIMPLE PLAN

Project Management app, inspired by Trello's design and features.

Learned: Strengthened my front-end capabilities, particularly in React and TypeScript. Deepened my backend understanding, focusing on Node, Express, and database operations with MongoDB.

`React` `TypeScript` `Redux` `Node` `Express` `MongoDB` `SCSS`

EDUCATION

Bachelor of Business Administration
Specialization in Project Management
Towson University, 2016

SOFTWARE

Over 2 years of **Javascript** experience, adept in front-end frameworks (**React**, **Next.js**, **Redux**) and back-end development (**Node**, **Express**), as well as testing automation with **Jest**.

Currently learning **React Native**, **PostgreSQL** and **GraphQL**.

TEACHER

Over 6 years of experience as an ESL instructor, specializing in teaching young learners online.

I also have experience teaching in-person in Beijing and Harbin, China.

Skilled in simplifying complex concepts and adapting to various learning styles.
